

NEW!

Horse Training App

Discover the behavioural science behind horse training, and test and train your horse in one easy to use app

Prevent & solve problem behaviours

Make your training more efficient

- > Learn the rules of training such as understanding how the horse learns, moves and using reinforcement
- > Understand horse training theory such as the basic cues and responses, using pressure-release, timing of aids and efficient learning strategies
- > Test your horse's responses in-hand and under-saddle, and train responsiveness to your signals
